TMA3084/TMA3083 Software Engineering Laboratories
Project's Requirement Specification
(15%)

These assignment rubrics is used to assess the SRS:

Deliverables	Percentage (15%)
A. Presentation on Software Requirement Specification	15
TOTAL	**15**

	Requirement Specification (15 marks)			Percentage (15%)
CLO1, CLO3		**/15**		**/15**

Project's Requirement Specification
(15%)

This rubric outlines the grading criteria for this document. Note that the criteria represent a plan for grading. Change is possible, especially given the dynamic nature of this course. Any change will be applied consistently for the entire class.

Achievement	Marks (%)	Minimal	Limited	Satisfactory	Exemplary	Score
Content Quality		**Section(s) missing, not useful, inconsistent, or wrong.**	**Serious omissions or problems with content.**	**Some problems with completeness or details of content**	**Provides all relevant information correctly and with appropriate detail**	
Introduction	2	Missing or wrong	Basic, lacks depth	Adequate, clear	Strong context, clear purpose	
Overall Description	2	Weak/inconsistent	Weak/inconsistent	Weak/inconsistent	Weak/inconsistent	
Specific Requirements	5	Missing/unclear	Partial & inconsistent	Partial & inconsistent	Fully detailed with tables/diagrams	
AI Element	2	No AI mentioned or incorrect usage	AI mentioned briefly; weak alignment to system	AI described clearly in at least one requirement section	AI purpose justified and integrated across functional + non-functional requirements (e.g., scope, flow, constraints)	
Writing Quality	2	Writing is unclear, frequent grammar/spelling errors, disorganized layout, and inconsistent tone. Hard to read or follow.	Several grammar/tone issues, some awkward phrasing, and weak organization. Meaning is conveyed but not smooth.	Mostly clear writing, minor language issues, acceptable structure and tone. Easy to follow with small improvements needed.	Clear, polished, professional writing with strong organization, correct grammar, and consistent tone. A pleasure to read.	
Presentation	2	Delivery unclear, difficult to understand, very poor preparation and structure	Understandable but lacks flow, confidence, or proper explanation of key points	Clear overall delivery, covers main SRS points, minor issues with flow or depth	Confident, structured, well-paced presentation; effectively highlights key SRS components
