TMA3084/TMA3083 Software Engineering Laboratories
Presentation Rubrics
(10%)

These assignment rubrics are used to assess two deliverables, which are as follows:

Deliverables	Percentage
A. Slides Presentation & responsiveness	5
B. Oral Presentation & Time management	5
TOTAL	**10**

	Section A: Slides Presentation & responsiveness (10 marks)	Section B: Oral Presentation & Time Management (10 marks)	Total Marks (20 marks)	Percentage (10%)
CLO3	**/10**			**/5**
CLO4		**/10**		**/5**

Section A: Slides Presentation & Responsiveness
(10 marks)

Criteria for assessment	*Performance levels*			
	Proficient (80 – 100%)	**Competent (50 – 79%)**	**Apprentice (20 – 49%)**	**Novice (0 – 19%)**
Slides Content / Design / organization (5 marks Weighting)	Slides clearly introduce software development process and techniques. Slides are well designed Slides are well organized.	Slides introduce software development process and techniques but unclear in a few slides. Slides are designed but not very attractive. Slides are organized but not perfect.	Slides introduce software development process and techniques, nut unclear in many slides. Slides are designed in a fair way. Slides are organized fairly.	Slides introduce software development process and techniques, but unclear in most slides. Slides are designed in a bad way. Slides are organized in a bad way.
Responsiveness (5 marks Weighting)	Highly responsive to questions from the instructor and audiences.	Generally responsive to answer most questions from the instructor and audiences.	Reluctantly interacts with audience; responds to question inadequately.	Unable to answer most of questions from the instructor and audience.

Section B: Oral Presentation & Time Management
(10 marks)

Criteria for assessment	*Performance levels*			
	Proficient (80 – 100%)	**Competent (50 – 79%)**	**Apprentice (20 – 49%)**	**Novice (0 – 19%)**
Time management (5 Weighting)	The presentation is finished in time.	The presentation is a little bit overrun; within 1 minute above the allocated time.	The presentation is overrun for more than 1 minute.	The presentation is overrun for more than 1 minute and not all contents are able to be presented.
Slides Presentation (5 Weighting)	The slides are presented clearly and fluently without reading slides.	The slides are presented without reading slides. There is some unclearness.	The slides are presented by reading the slides in most time or unclearly in most time.	The slides are all read by presenters.
