TMA3084/TMA3083 Software Engineering Laboratories
Peer/Individual Evaluation (10%)

This assignment rubric is used to assess Peer/Individual Evaluation:

Deliverables	Percentage
Peer/Individual Evaluation	10
TOTAL	**10**

	Peer/Individual Evaluation (50 marks)	Total Marks (50 marks)	Percentage (10%)
CLO2/CLO3	**/50**		**/10**

TME 3413 Software Engineering Laboratories
Peer/Individual Evaluation
(50 marks)

Category of evaluations	1	2	3	4	5	Marks
1. Quantity of Work Consider the degree to which the team member provides work that is accurate and complete.	Produces unacceptable work; fails to meet minimum group or project	Occasionally produces work that meets minimum group or project requirement	Meets minimum group or project requirements	Regularly produces work that meets minimum requirements and sometimes exceeds project or group requirements.	Produces work that consistently exceeds established group or project requirements	
2. Timeliness of Work Consider the team member's timeliness of work	Fail to meet deadlines set by group	Occasionally misses deadlines set by group	Regularly meets deadlines set by group	Consistently meets deadlines set by group and occasionally competes work ahead of schedule	Consistently completes work ahead of schedule	
3. Task Support Consider the amount of task support the team member gives to others	Gives no task support to other members	Sometimes gives task support to other members	Occasionally provides task support to other group members	Consistently provides task support to other group members	Consistently gives more task support than expected	
4. Interaction Consider how the team member relates and communicates to others	Behavior is detrimental/harmful to group	Behavior is inconsistent and occasionally distracts group meetings	Regularly projects appropriate team behaviour including: listening to others and allowing his/her to be criticized.	Consistently demonstrates appropriate team behavior	Consistently demonstrates exemplary team behavior	

5. Attendance Consider the team member's attendance at the group/client meetings	Failed to attend the group/client meetings	Attended 1% - 32% of the group/client meetings	Attended 33% - 65% of the group/client meetings	Attended 66% - 99% of the group/client meetings	Attended 100% of the group/client meetings	
6. Responsibility Consider the ability of the team member to carry out a chosen or assigned task & reliability to complete task.	Is unwilling to carry out assigned tasks	Sometimes carries out assigned tasks but never volunteers to do a task	Carries out assigned tasks but never volunteers to do a task	Consistently carries out assigned tasks and occasionally volunteers for other tasks	Consistently carries out assigned task and always volunteers for other tasks	
7. Involvement Consider the extend to which the student team member participates in the exchange of information (does outside research, brings outside knowledge to group)	Fails to participate in group discussions and fails to share relevant material	Sometimes participate in group discussion and rarely contributes relevant material for the project	Take part in group discussions and shares relevant information	Regularly in group discussion and sometimes exceeds expectations	Consistently exceed group expectation and consistently contributes relevant material to projects	
8. **Leadership** Consider how the team member engaged in leadership activities.	Does not display leadership skills	Display minimal leadership skills in team	Occasionally assumes leadership role	Regularly display good leadership skills	Consistently demonstrates exemplary leadership skills	

9. Role assignment Consider how the team member establish their assigned roles (developer, designer, quality manager, tester etc..)	Does not establish the skills on the assigned role	Display minimal assigned role skills in team	Occasionally assumes assigned role	Regularly display good assigned skills	Consistently demonstrates exemplary assigned skills	
10. **Overall Performance** Consider the overall performance of the team member in the group	Performance significantly fails to meet group requirements.	Performance fails to meet some group requirements	Performance meets all group requirements	Performance meets all group requirements consistently and sometimes exceeds	Performance consistently exceed all group requirements
