TMA3084/TMA3083 Software Engineering
Laboratories Team Evaluation
(10%)

This assignment rubrics is used to assess Team Evaluation:

Deliverables	Percentage
Team Evaluation	10
TOTAL	**10**

	Team Evaluation (50 marks)	Total Marks (50 marks)	Percentage (10%)
CLO2/CLO3	**/50**		**/10**

Team Evaluation
(50 marks)

Individually, reflect on the student group's dynamics and – anonymously – rate them according to each of the following variables (using a scale from 1 to 5). As a group, students should discuss the results and brainstorm concrete ways to improve their group processes.

1. Goals						
Goals are unclear or poorly understood, resulting in little commitment to them.	1	2	3	4	5	Goals are clear, understood, and have the full commitment of team members.
2. Openness						
Members are guarded or cautious in discussions.	1	2	3	4	5	Members express thoughts, feelings, and ideas freely.
3. Mutual Trust						
Members are suspicious of one another's motives.	1	2	3	4	5	Members trust one another and do not fear ridicule or reprisal.
4. Attitudes Toward Difference						
Members smooth over differences and suppress or avoid conflict.	1	2	3	4	5	Members feel free to voice differences and work through them.
5. Support						
Members are reluctant to ask for or give help.	1	2	3	4	5	Members are comfortable giving and receiving help.
6. Participation						
Discussion is generally dominated by a few members.	1	2	3	4	5	All members are involved in discussion.

7. Decision-making						
Decisions are made by only a few members.	1	2	3	4	5	All members are involved in decision-making.
8. Flexibility						
The group is locked into established rules and procedures that members find difficult to change.	1	2	3	4	5	Members readily change procedures in response to new situations.
9. Use of Member Resources						
Individuals' abilities, knowledge and experience is not well utilized.	1	2	3	4	5	Each member's abilities, knowledge, and experience are fully utilized.
10. Overall Team Performance						
Performance significantly fails to meet group requirements	1	2	3	4	5	Performance consistently exceed all group requirements.
